

CodeQuest Study Reports - Ownership and License

CodeQuest Study Reports ? Ownership & License

****Document type:**** Copyright & usage declaration

****Effective date:**** 12 July 2026

****Prepared for:**** CodeQuest

1. Ownership

These study reports are ****original educational summaries**** created and authored by:

Gagan Pasupuleti

Gagan Pasupuleti is the ****sole author and owner**** of the study report content contained in this collection, including all summaries, chapter explanations, code examples, topic guides, key takeaways, and formatted outputs (JSON, Markdown, and PDF).

Each report is marked: ***Written by Gagan Pasupuleti***.

2. Purpose ? Prepared for CodeQuest

This collection was ****prepared exclusively for use within CodeQuest****, including:

- Student learning and review pages
- Teacher evaluation and marking
- Course pathways and progress tracking
- Internal educational display on the CodeQuest platform

The reports are designed as ****clean, chapter-style study materials**** derived from Python programming books in the source library. They are ****not**** copies of original book text, author pages, or publisher license sections.

3. What This Collection Contains

****Catalog file:**** `Book\_Reports/catalog.json`

****Author on all reports:**** Gagan Pasupuleti

4. Topic Families (Report Groups)

01 ? Python Beginners Core (6 reports)

First steps: syntax, variables, control flow, and beginner practice.

02 ? Python Crash Courses (4 reports)

Fast-track learning for short study windows (weekend, one day, one week).

03 ? Combo Learning Paths (3 reports)

Multi-book bundles combining beginner guides and crash courses.

04 ? Data Analysis (2 reports)

Python for coding, data analysis, and algorithmic thinking.

05 ? Data Science (4 reports)

Data science fundamentals, NumPy/Pandas, Hadoop, and multi-manuscript paths.

06 ? Machine Learning (6 reports)

ML concepts, scikit-learn, model training, and applied project guides.

07 ? Deep Learning & AI (3 reports)

Neural networks, deep learning fundamentals, and AI project workflows.

08 ? Multi-Language Programming (4 reports)

Python alongside Java, PHP, Linux, Arduino, and JavaScript.

09 ? Kids & Makers (2 reports)

Python for kids and Raspberry Pi / maker-style learning.

10 ? Comprehensive & Projects (3 reports)

All-in-one references, cookbooks, and practical automation (e.g. Automate the Boring Stuff).

5. Chapter Topics Covered

Across all 37 reports, chapters cover the following subject areas:

Each chapter includes: explanation, code reference, **What it actually is**, **When to use it**, **Where to use it**, and a **Real use example**.

6. Skill Levels

Reports span these levels:

- **Beginner** ? core syntax and first programs
- **Beginner to Intermediate** ? applied Python and data work
- **Intermediate** ? data science and ML tooling
- **Intermediate to Advanced** ? AI projects and deep learning
- **Advanced** ? deep learning theory and architecture
- **Mixed** ? multi-book bundles with varied depth

7. Copyright Notice

Copyright (c) 2026 Gagan Pasupuleti. All rights reserved.

No part of this study report collection may be reproduced, distributed, published, sublicensed, or sold outside of CodeQuest without **written permission** from Gagan Pasupuleti, except as allowed under Section 8 below.

8. CodeQuest Usage Rights

CodeQuest is granted a **non-exclusive, internal-use license** to:

1. Display reports on CodeQuest web and review interfaces
2. Use JSON/Markdown/PDF files in teacher and student workflows
3. Link reports from `catalog.json` in frontend navigation
4. Archive and version reports as part of the CodeQuest learning platform

This license **does not** transfer ownership. Gagan Pasupuleti retains full copyright.

9. Restrictions

Without written approval from Gagan Pasupuleti, third parties may **not**:

- Republish reports as books or commercial courses
- Remove author attribution (*Written by Gagan Pasupuleti*)
- Claim authorship of these summaries
- Redistribute PDFs or JSON exports outside CodeQuest

10. Source Material Disclaimer

Source book titles and filenames are referenced for **catalog and traceability only**. These study reports are **independent summaries** created for education. They do not include original publisher copyright

pages, author biographies, or license text from source books.

11. Contact & Attribution

****Author & copyright owner:**** Gagan Pasupuleti

****Platform:**** CodeQuest

****Collection path:**** `Book\_Reports/`

Required attribution when displaying a report:

> Study Report prepared by ****Gagan Pasupuleti**** for ****CodeQuest****

This document establishes ownership and permitted use of the CodeQuest Python Study Reports collection.
