

Project Report: Requirements Doc for Mobile App Feature - Business Analyst

Written by Gagan Pasupuleti

Family:	Business Analyst
Level:	Beginner
Chapters:	6
Source:	CodeQuest project specification (official docs + industry patterns)

Summary

Elicit requirements for a 'dark mode' feature: interviews, user stories, acceptance criteria, mock wireframe.

Chapters

Track: Project-Intro

Chapter 1: Project Overview [Beginner]

Chapter focus: Project Overview** *(Level: Beginner)

Requirements Doc for Mobile App Feature** is a beginner-level end-to-end project for Business Analyst. Duration: 2 weeks. Elicit requirements for a 'dark mode' feature: interviews, user stories, acceptance criteria, mock wireframe. Tools: Figma/Balsamiq, Confluence template.

Code Reference:

Objective: 2 stakeholder interview summaries
Objective: 5 user stories with acceptance criteria
Objective: Wireframe mockup
Objective: Requirements traceability matrix

What it shows: Lists measurable outcomes before you start building.

Topic guide

What it actually is

A project overview defines scope, tools, and success criteria.

When to use it

At project kickoff.

Where to use it

Business Analyst portfolios and CodeQuest project submissions.

Real use example

A candidate lists this project on a Business Analyst resume with a demo link.

Track: Project-Phase

Chapter 2: Phase: Elicit [Beginner]

Chapter focus: Phase: Elicit** *(Level: Beginner)

Stakeholder interviews. Complete these tasks: Question guide; Notes. Deliverable for this phase: Interview summaries.

Code Reference:

- [] Question guide
- [] Notes

What it shows: Checklist format helps track phase completion.

Topic guide

What it actually is

Phase Elicit is one step in the full project lifecycle.

When to use it

During week 1 of the project timeline.

Where to use it

Business Analyst agile sprints and coursework milestones.

Real use example

Team demo shows the Interview summaries to the teacher.

Chapter 3: Phase: Stories [Beginner]

Chapter focus: Phase: Stories** *(Level: Beginner)

User stories + AC. Complete these tasks: Given/When/Then; Priority. Deliverable for this phase: Backlog document.

Code Reference:

- [] Given/When/Then
- [] Priority

What it shows: Checklist format helps track phase completion.

Topic guide

What it actually is

Phase Stories is one step in the full project lifecycle.

When to use it

During week 2 of the project timeline.

Where to use it

Business Analyst agile sprints and coursework milestones.

Real use example

Team demo shows the Backlog document to the teacher.

Chapter 4: Phase: Wireframe [Beginner]**Chapter focus: Phase: Wireframe** *(Level: Beginner)**

Low-fi mockup. Complete these tasks: Figma/Balsamiq; Annotations. Deliverable for this phase: Wireframe PDF.

Code Reference:

- [] Figma/Balsamiq
- [] Annotations

What it shows: Checklist format helps track phase completion.

Topic guide**What it actually is**

Phase Wireframe is one step in the full project lifecycle.

When to use it

During week 3 of the project timeline.

Where to use it

Business Analyst agile sprints and coursework milestones.

Real use example

Team demo shows the Wireframe PDF to the teacher.

Chapter 5: Phase: RTM [Beginner]**Chapter focus: Phase: RTM** *(Level: Beginner)**

Traceability matrix. Complete these tasks: Story ? AC ? Test. Deliverable for this phase: RTM spreadsheet.

Code Reference:

- [] Story ? AC ? Test

What it shows: Checklist format helps track phase completion.

Topic guide

What it actually is

Phase RTM is one step in the full project lifecycle.

When to use it

During week 4 of the project timeline.

Where to use it

Business Analyst agile sprints and coursework milestones.

Real use example

Team demo shows the RTM spreadsheet to the teacher.

Track: Project-Deliverables

Chapter 6: Final Deliverables and Review [Beginner]

Chapter focus: Final Deliverables and Review** *(Level: Beginner)

Submit all final deliverables: Requirements doc; User stories; Wireframe; RTM. Skills demonstrated: Requirements, User stories, Wireframing. Prepare a 5-minute walkthrough video and README for CodeQuest teacher marking.

Code Reference:

```
Deliverable: Requirements doc
Deliverable: User stories
Deliverable: Wireframe
Deliverable: RTM
```

What it shows: Final checklist ensures nothing is missing at submission.

Topic guide

What it actually is

Deliverable review confirms end-to-end project completion.

When to use it

Before deadline and teacher review.

Where to use it

CodeQuest project gallery and interviews.

Real use example

A student submits Requirements doc and passes the rubric.
