

Project Report: CodeQuest Reports Catalog App - Frontend React Developer

Written by Gagan Pasupuleti

Family:	Frontend React Developer
Level:	Intermediate
Chapters:	6
Source:	CodeQuest project specification (official docs + industry patterns)

Summary

React app fetching catalog.json: search, filter by family, detail view with chapter list, TypeScript throughout.

Chapters

Track: Project-Intro

Chapter 1: Project Overview [Intermediate]

Chapter focus: Project Overview *(Level: Intermediate)**

CodeQuest Reports Catalog App** is a intermediate-level end-to-end project for Frontend React Developer. Duration: 3-4 weeks. React app fetching catalog.json: search, filter by family, detail view with chapter list, TypeScript throughout. Tools: React 19, TypeScript, TanStack Query, Vitest.

Code Reference:

```
Objective: Fetch and display catalog.json
Objective: Search and filter by family/level
Objective: Report detail page with chapters
Objective: TanStack Query for caching
```

What it shows: Lists measurable outcomes before you start building.

Topic guide

What it actually is

A project overview defines scope, tools, and success criteria.

When to use it

At project kickoff.

Where to use it

Frontend React Developer portfolios and CodeQuest project submissions.

Real use example

A candidate lists this project on a Frontend React Developer resume with a demo link.

Track: Project-Phase

Chapter 2: Phase: Data [Intermediate]

Chapter focus: Phase: Data *(Level: Intermediate)**

Fetch catalog API. Complete these tasks: TanStack Query; Loading states. Deliverable for this phase: Catalog grid page.

Code Reference:

- [] TanStack Query
- [] Loading states

What it shows: Checklist format helps track phase completion.

Topic guide**What it actually is**

Phase Data is one step in the full project lifecycle.

When to use it

During week 1 of the project timeline.

Where to use it

Frontend React Developer agile sprints and coursework milestones.

Real use example

Team demo shows the Catalog grid page to the teacher.

Chapter 3: Phase: Search [Intermediate]

Chapter focus: Phase: Search *(Level: Intermediate)**

Filter and sort. Complete these tasks: Debounced search; Family chips. Deliverable for this phase: Search UX demo.

Code Reference:

- [] Debounced search
- [] Family chips

What it shows: Checklist format helps track phase completion.

Topic guide

What it actually is

Phase Search is one step in the full project lifecycle.

When to use it

During week 2 of the project timeline.

Where to use it

Frontend React Developer agile sprints and coursework milestones.

Real use example

Team demo shows the Search UX demo to the teacher.

Chapter 4: Phase: Detail [Intermediate]**Chapter focus: Phase: Detail** *(Level: Intermediate)**

Report detail route. Complete these tasks: Chapter list; Book sidebar. Deliverable for this phase: /reports/:id page.

Code Reference:

- [] Chapter list
- [] Book sidebar

What it shows: Checklist format helps track phase completion.

Topic guide**What it actually is**

Phase Detail is one step in the full project lifecycle.

When to use it

During week 3 of the project timeline.

Where to use it

Frontend React Developer agile sprints and coursework milestones.

Real use example

Team demo shows the /reports/:id page to the teacher.

Chapter 5: Phase: Tests [Intermediate]**Chapter focus: Phase: Tests** *(Level: Intermediate)**

Vitest + Testing Library. Complete these tasks: Component tests; MSW mocks. Deliverable for this phase: Test coverage report.

Code Reference:

- [] Component tests
- [] MSW mocks

What it shows: Checklist format helps track phase completion.

Topic guide

What it actually is

Phase Tests is one step in the full project lifecycle.

When to use it

During week 4 of the project timeline.

Where to use it

Frontend React Developer agile sprints and coursework milestones.

Real use example

Team demo shows the Test coverage report to the teacher.

Track: Project-Deliverables

Chapter 6: Final Deliverables and Review [Intermediate]

Chapter focus: Final Deliverables and Review** *(Level: Intermediate)

Submit all final deliverables: GitHub repo; Live demo; Test report; Component storybook optional.
Skills demonstrated: React, TypeScript, Data fetching. Prepare a 5-minute walkthrough video and README for CodeQuest teacher marking.

Code Reference:

```
Deliverable: GitHub repo
Deliverable: Live demo
Deliverable: Test report
Deliverable: Component storybook optional
```

What it shows: Final checklist ensures nothing is missing at submission.

Topic guide

What it actually is

Deliverable review confirms end-to-end project completion.

When to use it

Before deadline and teacher review.

Where to use it

CodeQuest project gallery and interviews.

Real use example

A student submits GitHub repo and passes the rubric.
