

Project Report: Small Office IT Setup - IT Support / Helpdesk

Written by Gagan Pasupuleti

Family:	IT Support / Helpdesk
Level:	Intermediate
Chapters:	6
Source:	CodeQuest project specification (official docs + industry patterns)

Summary

Design and document network for 15 users: IP plan, Active Directory, backup, security baseline.

Chapters

Track: Project-Intro

Chapter 1: Project Overview [Intermediate]

Chapter focus: Project Overview** *(Level: Intermediate)

Small Office IT Setup** is a intermediate-level end-to-end project for IT Support / Helpdesk. **Duration:** 2-3 weeks. **Design and document network for 15 users:** IP plan, Active Directory, backup, security baseline. **Tools:** Windows Server docs, Network tools.

Code Reference:

Objective: Network diagram with IP addressing
Objective: AD user/group structure
Objective: Backup policy document
Objective: Security baseline checklist

What it shows: Lists measurable outcomes before you start building.

Topic guide

What it actually is

A project overview defines scope, tools, and success criteria.

When to use it

At project kickoff.

Where to use it

IT Support / Helpdesk portfolios and CodeQuest project submissions.

Real use example

A candidate lists this project on a IT Support / Helpdesk resume with a demo link.

Track: Project-Phase

Chapter 2: Phase: Network [Intermediate]

Chapter focus: Phase: Network** *(Level: Intermediate)

IP plan and diagram. Complete these tasks: Subnet; VLAN; Firewall rules. Deliverable for this phase: Network diagram Visio/draw.io.

Code Reference:

- [] Subnet
- [] VLAN
- [] Firewall rules

What it shows: Checklist format helps track phase completion.

Topic guide

What it actually is

Phase Network is one step in the full project lifecycle.

When to use it

During week 1 of the project timeline.

Where to use it

IT Support / Helpdesk agile sprints and coursework milestones.

Real use example

Team demo shows the Network diagram Visio/draw.io to the teacher.

Chapter 3: Phase: AD [Intermediate]

Chapter focus: Phase: AD** *(Level: Intermediate)

User and group design. Complete these tasks: OUs; GPO basics. Deliverable for this phase: AD structure doc.

Code Reference:

- [] OUs
- [] GPO basics

What it shows: Checklist format helps track phase completion.

Topic guide

What it actually is

Phase AD is one step in the full project lifecycle.

When to use it

During week 2 of the project timeline.

Where to use it

IT Support / Helpdesk agile sprints and coursework milestones.

Real use example

Team demo shows the AD structure doc to the teacher.

Chapter 4: Phase: Backup [Intermediate]

Chapter focus: Phase: Backup *(Level: Intermediate)**

3-2-1 backup policy. Complete these tasks: Schedule; Restore test. Deliverable for this phase: Backup policy PDF.

Code Reference:

- [] Schedule
- [] Restore test

What it shows: Checklist format helps track phase completion.

Topic guide

What it actually is

Phase Backup is one step in the full project lifecycle.

When to use it

During week 3 of the project timeline.

Where to use it

IT Support / Helpdesk agile sprints and coursework milestones.

Real use example

Team demo shows the Backup policy PDF to the teacher.

Chapter 5: Phase: Security [Intermediate]

Chapter focus: Phase: Security *(Level: Intermediate)**

Baseline hardening. Complete these tasks: MFA; Patch policy; AV. Deliverable for this phase: Security checklist signed off.

Code Reference:

- [] MFA
- [] Patch policy
- [] AV

What it shows: Checklist format helps track phase completion.

Topic guide

What it actually is

Phase Security is one step in the full project lifecycle.

When to use it

During week 4 of the project timeline.

Where to use it

IT Support / Helpdesk agile sprints and coursework milestones.

Real use example

Team demo shows the Security checklist signed off to the teacher.

Track: Project-Deliverables

Chapter 6: Final Deliverables and Review [Intermediate]

Chapter focus: Final Deliverables and Review** *(Level: Intermediate)

Submit all final deliverables: Network diagram; AD design; Backup policy; Security baseline. Skills demonstrated: Networking, AD, Security. Prepare a 5-minute walkthrough video and README for CodeQuest teacher marking.

Code Reference:

```
Deliverable: Network diagram
Deliverable: AD design
Deliverable: Backup policy
Deliverable: Security baseline
```

What it shows: Final checklist ensures nothing is missing at submission.

Topic guide

What it actually is

Deliverable review confirms end-to-end project completion.

When to use it

Before deadline and teacher review.

Where to use it

CodeQuest project gallery and interviews.

Real use example

A student submits Network diagram and passes the rubric.
