

Project Report: Employee Onboarding Flow - ServiceNow Developer / Administrator

Written by Gagan Pasupuleti

Family:	ServiceNow Developer / Administrator
Level:	Intermediate
Chapters:	6
Source:	CodeQuest project specification (official docs + industry patterns)

Summary

Flow Designer automation: new hire triggers tasks for IT, HR, and facilities with approval steps.

Chapters

Track: Project-Intro

Chapter 1: Project Overview [Intermediate]

Chapter focus: Project Overview** *(Level: Intermediate)

Employee Onboarding Flow** is a intermediate-level end-to-end project for ServiceNow Developer / Administrator. **Duration:** 3-4 weeks. **Flow Designer automation:** new hire triggers tasks for IT, HR, and facilities with approval steps. **Tools:** ServiceNow PDI, Flow Designer.

Code Reference:

Objective: Record-triggered flow on new hire
Objective: Parallel tasks for IT/HR/Facilities
Objective: Manager approval step
Objective: Dashboard showing onboarding status

What it shows: Lists measurable outcomes before you start building.

Topic guide

What it actually is

A project overview defines scope, tools, and success criteria.

When to use it

At project kickoff.

Where to use it

ServiceNow Developer / Administrator portfolios and CodeQuest project submissions.

Real use example

A candidate lists this project on a ServiceNow Developer / Administrator resume with a demo link.

Track: Project-Phase

Chapter 2: Phase: Flow [Intermediate]

Chapter focus: Phase: Flow** *(Level: Intermediate)

Record-triggered flow. Complete these tasks: Trigger conditions; Variables. Deliverable for this phase: Flow diagram export.

Code Reference:

- [] Trigger conditions
- [] Variables

What it shows: Checklist format helps track phase completion.

Topic guide

What it actually is

Phase Flow is one step in the full project lifecycle.

When to use it

During week 1 of the project timeline.

Where to use it

ServiceNow Developer / Administrator agile sprints and coursework milestones.

Real use example

Team demo shows the Flow diagram export to the teacher.

Chapter 3: Phase: Tasks [Intermediate]

Chapter focus: Phase: Tasks** *(Level: Intermediate)

Parallel subflows. Complete these tasks: Laptop request; Badge; Accounts. Deliverable for this phase: Task templates.

Code Reference:

- [] Laptop request
- [] Badge
- [] Accounts

What it shows: Checklist format helps track phase completion.

Topic guide

What it actually is

Phase Tasks is one step in the full project lifecycle.

When to use it

During week 2 of the project timeline.

Where to use it

ServiceNow Developer / Administrator agile sprints and coursework milestones.

Real use example

Team demo shows the Task templates to the teacher.

Chapter 4: Phase: Approval [Intermediate]

Chapter focus: Phase: Approval *(Level: Intermediate)**

Manager sign-off. Complete these tasks: Approval action; Rejection path. Deliverable for this phase: Approval demo video.

Code Reference:

- [] Approval action
- [] Rejection path

What it shows: Checklist format helps track phase completion.

Topic guide

What it actually is

Phase Approval is one step in the full project lifecycle.

When to use it

During week 3 of the project timeline.

Where to use it

ServiceNow Developer / Administrator agile sprints and coursework milestones.

Real use example

Team demo shows the Approval demo video to the teacher.

Chapter 5: Phase: Dashboard [Intermediate]

Chapter focus: Phase: Dashboard *(Level: Intermediate)**

Onboarding tracker. Complete these tasks: Reports; Metrics. Deliverable for this phase: Dashboard screenshot.

Code Reference:

- [] Reports
- [] Metrics

What it shows: Checklist format helps track phase completion.

Topic guide

What it actually is

Phase Dashboard is one step in the full project lifecycle.

When to use it

During week 4 of the project timeline.

Where to use it

ServiceNow Developer / Administrator agile sprints and coursework milestones.

Real use example

Team demo shows the Dashboard screenshot to the teacher.

Track: Project-Deliverables

Chapter 6: Final Deliverables and Review [Intermediate]

Chapter focus: Final Deliverables and Review** *(Level: Intermediate)

Submit all final deliverables: Flow export XML; Demo video; Dashboard screenshot. Skills demonstrated: Flow Designer, Automation, ITSM. Prepare a 5-minute walkthrough video and README for CodeQuest teacher marking.

Code Reference:

Deliverable: Flow export XML

Deliverable: Demo video

Deliverable: Dashboard screenshot

What it shows: Final checklist ensures nothing is missing at submission.

Topic guide

What it actually is

Deliverable review confirms end-to-end project completion.

When to use it

Before deadline and teacher review.

Where to use it

CodeQuest project gallery and interviews.

Real use example

A student submits Flow export XML and passes the rubric.
