## Summary

---

Map current vs future state with BPMN, define requirements for teacher marking feature, write UAT plan.

## Chapters

---

### Track: Project-Intro

---

#### Chapter 1: Project Overview [Intermediate]

**Chapter focus: Project Overview\*\* \*(Level: Intermediate)**

**CodeQuest Marking Workflow Analysis\*\* is a intermediate-level end-to-end project for Business Analyst. Duration: 3 weeks. Map current vs future state with BPMN, define requirements for teacher marking feature, write UAT plan. Tools: Bizagi/draw.io, Confluence.**

**Code Reference:**

Objective: As-is and to-be BPMN diagrams  
Objective: 15 functional requirements  
Objective: UAT test plan with 10 cases  
Objective: Stakeholder sign-off template

*What it shows: Lists measurable outcomes before you start building.*

#### Topic guide

##### **What it actually is**

A project overview defines scope, tools, and success criteria.

##### **When to use it**

At project kickoff.

### Where to use it

Business Analyst portfolios and CodeQuest project submissions.

### Real use example

A candidate lists this project on a Business Analyst resume with a demo link.

## Track: Project-Phase

---

### Chapter 2: Phase: As-Is [Intermediate]

#### Chapter focus: Phase: As-Is\*\* \*(Level: Intermediate)

Current process map. Complete these tasks: Pain points; Bottlenecks. Deliverable for this phase: As-is BPMN.

#### Code Reference:

- [ ] Pain points
- [ ] Bottlenecks

*What it shows: Checklist format helps track phase completion.*

### Topic guide

#### What it actually is

Phase As-Is is one step in the full project lifecycle.

#### When to use it

During week 1 of the project timeline.

#### Where to use it

Business Analyst agile sprints and coursework milestones.

#### Real use example

Team demo shows the As-is BPMN to the teacher.

### Chapter 3: Phase: To-Be [Intermediate]

#### Chapter focus: Phase: To-Be\*\* \*(Level: Intermediate)

Future state design. Complete these tasks: Automation points; Roles. Deliverable for this phase: To-be BPMN.

#### Code Reference:

- [ ] Automation points
- [ ] Roles

*What it shows: Checklist format helps track phase completion.*

### Topic guide

**What it actually is**

Phase To-Be is one step in the full project lifecycle.

**When to use it**

During week 2 of the project timeline.

**Where to use it**

Business Analyst agile sprints and coursework milestones.

**Real use example**

Team demo shows the To-be BPMN to the teacher.

**Chapter 4: Phase: Requirements [Intermediate]****Chapter focus: Phase: Requirements\*\* \*(Level: Intermediate)**

Functional + non-functional. Complete these tasks: FR-001 to FR-015; NFRs. Deliverable for this phase: Requirements spec.

**Code Reference:**

- [ ] FR-001 to FR-015
- [ ] NFRs

*What it shows: Checklist format helps track phase completion.*

**Topic guide****What it actually is**

Phase Requirements is one step in the full project lifecycle.

**When to use it**

During week 3 of the project timeline.

**Where to use it**

Business Analyst agile sprints and coursework milestones.

**Real use example**

Team demo shows the Requirements spec to the teacher.

**Chapter 5: Phase: UAT [Intermediate]****Chapter focus: Phase: UAT\*\* \*(Level: Intermediate)**

Test plan. Complete these tasks: 10 test cases; Sign-off form. Deliverable for this phase: UAT plan PDF.

**Code Reference:**

- [ ] 10 test cases
- [ ] Sign-off form

*What it shows: Checklist format helps track phase completion.*

## Topic guide

### What it actually is

Phase UAT is one step in the full project lifecycle.

### When to use it

During week 4 of the project timeline.

### Where to use it

Business Analyst agile sprints and coursework milestones.

### Real use example

Team demo shows the UAT plan PDF to the teacher.

## Track: Project-Deliverables

---

### Chapter 6: Final Deliverables and Review [Intermediate]

#### Chapter focus: Final Deliverables and Review\*\* \*(Level: Intermediate)

Submit all final deliverables: BPMN diagrams; Requirements spec; UAT plan. Skills demonstrated: BPMN, Requirements, UAT. Prepare a 5-minute walkthrough video and README for CodeQuest teacher marking.

#### Code Reference:

Deliverable: BPMN diagrams  
Deliverable: Requirements spec  
Deliverable: UAT plan

*What it shows: Final checklist ensures nothing is missing at submission.*

## Topic guide

### What it actually is

Deliverable review confirms end-to-end project completion.

### When to use it

Before deadline and teacher review.

### Where to use it

CodeQuest project gallery and interviews.

### Real use example

A student submits BPMN diagrams and passes the rubric.
