

Project Report: SOC Alert Triage Playbook - Cybersecurity Analyst

Written by Gagan Pasupuleti

Family:	Cybersecurity Analyst
Level:	Advanced
Chapters:	6
Source:	CodeQuest project specification (official docs + industry patterns)

Summary

Build SIEM detection rules, triage 10 alert scenarios, write IR playbook, conduct tabletop exercise.

Chapters

Track: Project-Intro

Chapter 1: Project Overview [Advanced]

Chapter focus: Project Overview** *(Level: Advanced)

SOC Alert Triage Playbook** is a advanced-level end-to-end project for Cybersecurity Analyst. **Duration:** 4-5 weeks. **Build SIEM detection rules, triage 10 alert scenarios, write IR playbook, conduct tabletop exercise. Tools:** Sigma, Splunk/Elastic, NIST IR.

Code Reference:

Objective: 5 SIEM detection rules (Sigma or Splunk SPL)
Objective: Triage playbook for 10 alert types
Objective: Incident response playbook
Objective: Tabletop exercise report

What it shows: Lists measurable outcomes before you start building.

Topic guide

What it actually is

A project overview defines scope, tools, and success criteria.

When to use it

At project kickoff.

Where to use it

Cybersecurity Analyst portfolios and CodeQuest project submissions.

Real use example

A candidate lists this project on a Cybersecurity Analyst resume with a demo link.

Track: Project-Phase

Chapter 2: Phase: Detect [Advanced]

Chapter focus: Phase: Detect *(Level: Advanced)**

Write detection rules. Complete these tasks: Brute force; Data exfil; Malware beacon. Deliverable for this phase: Rule definitions.

Code Reference:

- [] Brute force
- [] Data exfil
- [] Malware beacon

What it shows: Checklist format helps track phase completion.

Topic guide**What it actually is**

Phase Detect is one step in the full project lifecycle.

When to use it

During week 1 of the project timeline.

Where to use it

Cybersecurity Analyst agile sprints and coursework milestones.

Real use example

Team demo shows the Rule definitions to the teacher.

Chapter 3: Phase: Triage [Advanced]

Chapter focus: Phase: Triage *(Level: Advanced)**

Playbook per alert. Complete these tasks: Steps; Escalation; Evidence. Deliverable for this phase: Triage playbook PDF.

Code Reference:

- [] Steps
- [] Escalation
- [] Evidence

What it shows: Checklist format helps track phase completion.

Topic guide

What it actually is

Phase Triage is one step in the full project lifecycle.

When to use it

During week 2 of the project timeline.

Where to use it

Cybersecurity Analyst agile sprints and coursework milestones.

Real use example

Team demo shows the Triage playbook PDF to the teacher.

Chapter 4: Phase: IR [Advanced]

Chapter focus: Phase: IR** *(Level: Advanced)

Incident response plan. Complete these tasks: Containment; Forensics; Recovery. Deliverable for this phase: IR playbook.

Code Reference:

- [] Containment
- [] Forensics
- [] Recovery

What it shows: Checklist format helps track phase completion.

Topic guide

What it actually is

Phase IR is one step in the full project lifecycle.

When to use it

During week 3 of the project timeline.

Where to use it

Cybersecurity Analyst agile sprints and coursework milestones.

Real use example

Team demo shows the IR playbook to the teacher.

Chapter 5: Phase: Exercise [Advanced]

Chapter focus: Phase: Exercise** *(Level: Advanced)

Tabletop 3 scenarios. Complete these tasks: Timeline; Lessons learned. Deliverable for this phase: Exercise report.

Code Reference:

- [] Timeline
- [] Lessons learned

What it shows: Checklist format helps track phase completion.

Topic guide

What it actually is

Phase Exercise is one step in the full project lifecycle.

When to use it

During week 4 of the project timeline.

Where to use it

Cybersecurity Analyst agile sprints and coursework milestones.

Real use example

Team demo shows the Exercise report to the teacher.

Track: Project-Deliverables

Chapter 6: Final Deliverables and Review [Advanced]

Chapter focus: Final Deliverables and Review** *(Level: Advanced)

Submit all final deliverables: Detection rules; Triage playbook; IR playbook; Tabletop report. Skills demonstrated: SIEM, Detection, Incident response. Prepare a 5-minute walkthrough video and README for CodeQuest teacher marking.

Code Reference:

Deliverable: Detection rules
Deliverable: Triage playbook
Deliverable: IR playbook
Deliverable: Tabletop report

What it shows: Final checklist ensures nothing is missing at submission.

Topic guide

What it actually is

Deliverable review confirms end-to-end project completion.

When to use it

Before deadline and teacher review.

Where to use it

CodeQuest project gallery and interviews.

Real use example

A student submits Detection rules and passes the rubric.
