

Project Report: Web App Security Assessment - Cybersecurity Analyst

Written by Gagan Pasupuleti

Family: Cybersecurity Analyst
Level: Intermediate
Chapters: 6
Source: CodeQuest project specification (official docs + industry patterns)

Summary

OWASP Top 10 assessment of a demo web app: ZAP scan, manual testing, remediation report.

Chapters

Track: Project-Intro

Chapter 1: Project Overview [Intermediate]

Chapter focus: Project Overview** *(Level: Intermediate)

Web App Security Assessment** is a intermediate-level end-to-end project for Cybersecurity Analyst. Duration: 3-4 weeks. OWASP Top 10 assessment of a demo web app: ZAP scan, manual testing, remediation report. Tools: OWASP ZAP, Burp Suite Community, Browser devtools.

Code Reference:

Objective: OWASP ZAP automated scan
Objective: Manual test for auth and injection
Objective: Risk-rated findings report
Objective: Remediation recommendations with priority

What it shows: Lists measurable outcomes before you start building.

Topic guide

What it actually is

A project overview defines scope, tools, and success criteria.

When to use it

At project kickoff.

Where to use it

Cybersecurity Analyst portfolios and CodeQuest project submissions.

Real use example

A candidate lists this project on a Cybersecurity Analyst resume with a demo link.

Track: Project-Phase

Chapter 2: Phase: Recon [Intermediate]

Chapter focus: Phase: Recon** *(Level: Intermediate)

Map application. Complete these tasks: Endpoints; Tech stack. Deliverable for this phase: App inventory.

Code Reference:

- [] Endpoints
- [] Tech stack

What it shows: Checklist format helps track phase completion.

Topic guide

What it actually is

Phase Recon is one step in the full project lifecycle.

When to use it

During week 1 of the project timeline.

Where to use it

Cybersecurity Analyst agile sprints and coursework milestones.

Real use example

Team demo shows the App inventory to the teacher.

Chapter 3: Phase: Scan [Intermediate]

Chapter focus: Phase: Scan** *(Level: Intermediate)

ZAP baseline + active. Complete these tasks: Authentication; Spider crawl. Deliverable for this phase: ZAP report HTML.

Code Reference:

- [] Authentication
- [] Spider crawl

What it shows: Checklist format helps track phase completion.

Topic guide

What it actually is

Phase Scan is one step in the full project lifecycle.

When to use it

During week 2 of the project timeline.

Where to use it

Cybersecurity Analyst agile sprints and coursework milestones.

Real use example

Team demo shows the ZAP report HTML to the teacher.

Chapter 4: Phase: Manual [Intermediate]**Chapter focus: Phase: Manual** *(Level: Intermediate)**

Top 10 manual tests. Complete these tasks: SQLi; XSS; Auth bypass. Deliverable for this phase: Manual test log.

Code Reference:

- ☐ SQLi
- ☐ XSS
- ☐ Auth bypass

What it shows: Checklist format helps track phase completion.

Topic guide**What it actually is**

Phase Manual is one step in the full project lifecycle.

When to use it

During week 3 of the project timeline.

Where to use it

Cybersecurity Analyst agile sprints and coursework milestones.

Real use example

Team demo shows the Manual test log to the teacher.

Chapter 5: Phase: Report [Intermediate]**Chapter focus: Phase: Report** *(Level: Intermediate)**

Findings + remediation. Complete these tasks: Critical/High/Med/Low; Fix guidance. Deliverable for this phase: Security assessment PDF.

Code Reference:

- ☐ Critical/High/Med/Low
- ☐ Fix guidance

What it shows: Checklist format helps track phase completion.

Topic guide

What it actually is

Phase Report is one step in the full project lifecycle.

When to use it

During week 4 of the project timeline.

Where to use it

Cybersecurity Analyst agile sprints and coursework milestones.

Real use example

Team demo shows the Security assessment PDF to the teacher.

Track: Project-Deliverables

Chapter 6: Final Deliverables and Review [Intermediate]

Chapter focus: Final Deliverables and Review *(Level: Intermediate)**

Submit all final deliverables: ZAP report; Manual test log; Assessment report PDF. Skills demonstrated: OWASP, Pen testing, Reporting. Prepare a 5-minute walkthrough video and README for CodeQuest teacher marking.

Code Reference:

Deliverable: ZAP report
Deliverable: Manual test log
Deliverable: Assessment report PDF

What it shows: Final checklist ensures nothing is missing at submission.

Topic guide

What it actually is

Deliverable review confirms end-to-end project completion.

When to use it

Before deadline and teacher review.

Where to use it

CodeQuest project gallery and interviews.

Real use example

A student submits ZAP report and passes the rubric.
