Summary

Full sales solution in managed solution: dev ? test ? prod with plugins, flows, and security roles.

Chapters

Track: Project-Intro

Chapter 1: Project Overview [Advanced]

Chapter focus: Project Overview** *(Level: Advanced)

Sales Pipeline with Power Platform ALM** is a advanced-level end-to-end project for Dynamics 365 CRM Consultant. Duration: 4-5 weeks. Full sales solution in managed solution: dev ? test ? prod with plugins, flows, and security roles. Tools: Dataverse, Plugin Registration Tool, Azure DevOps.

Code Reference:

Objective: Managed solution with all customizations
Objective: Plugin for opportunity validation
Objective: ALM pipeline across 3 environments
Objective: Security roles for sales rep and manager

What it shows: Lists measurable outcomes before you start building.

Topic guide

What it actually is

A project overview defines scope, tools, and success criteria.

When to use it

At project kickoff.

Where to use it

Dynamics 365 CRM Consultant portfolios and CodeQuest project submissions.

Real use example

A candidate lists this project on a Dynamics 365 CRM Consultant resume with a demo link.

Track: Project-Phase

Chapter 2: Phase: Solution [Advanced]

Chapter focus: Phase: Solution** *(Level: Advanced)

Unmanaged dev solution. Complete these tasks: Entities; Forms; Views. Deliverable for this phase: Solution export.

Code Reference:

- [] Entities
- [] Forms
- [] Views

What it shows: Checklist format helps track phase completion.

Topic guide

What it actually is

Phase Solution is one step in the full project lifecycle.

When to use it

During week 1 of the project timeline.

Where to use it

Dynamics 365 CRM Consultant agile sprints and coursework milestones.

Real use example

Team demo shows the Solution export to the teacher.

Chapter 3: Phase: Plugin [Advanced]

Chapter focus: Phase: Plugin** *(Level: Advanced)

Opportunity validation. Complete these tasks: Pre-create plugin; Unit tests. Deliverable for this phase: Plugin + tests.

Code Reference:

- [] Pre-create plugin
- [] Unit tests

What it shows: Checklist format helps track phase completion.

Topic guide

What it actually is

Phase Plugin is one step in the full project lifecycle.

When to use it

During week 2 of the project timeline.

Where to use it

Dynamics 365 CRM Consultant agile sprints and coursework milestones.

Real use example

Team demo shows the Plugin + tests to the teacher.

Chapter 4: Phase: ALM [Advanced]

Chapter focus: Phase: ALM *(Level: Advanced)**

Dev ? Test ? Prod. Complete these tasks: Export/import; Connection refs. Deliverable for this phase: ALM pipeline doc.

Code Reference:

- [] Export/import
- [] Connection refs

What it shows: Checklist format helps track phase completion.

Topic guide

What it actually is

Phase ALM is one step in the full project lifecycle.

When to use it

During week 3 of the project timeline.

Where to use it

Dynamics 365 CRM Consultant agile sprints and coursework milestones.

Real use example

Team demo shows the ALM pipeline doc to the teacher.

Chapter 5: Phase: Security [Advanced]

Chapter focus: Phase: Security *(Level: Advanced)**

Role-based access. Complete these tasks: Sales Rep; Manager roles. Deliverable for this phase: Security test matrix.

Code Reference:

- [] Sales Rep
- [] Manager roles

What it shows: Checklist format helps track phase completion.

Topic guide

What it actually is

Phase Security is one step in the full project lifecycle.

When to use it

During week 4 of the project timeline.

Where to use it

Dynamics 365 CRM Consultant agile sprints and coursework milestones.

Real use example

Team demo shows the Security test matrix to the teacher.

Track: Project-Deliverables

Chapter 6: Final Deliverables and Review [Advanced]

Chapter focus: Final Deliverables and Review** *(Level: Advanced)

Submit all final deliverables: Managed solution; Plugin code; ALM doc; Security matrix. Skills demonstrated: ALM, Plugins, Security. Prepare a 5-minute walkthrough video and README for CodeQuest teacher marking.

Code Reference:

```
Deliverable: Managed solution
Deliverable: Plugin code
Deliverable: ALM doc
Deliverable: Security matrix
```

What it shows: Final checklist ensures nothing is missing at submission.

Topic guide

What it actually is

Deliverable review confirms end-to-end project completion.

When to use it

Before deadline and teacher review.

Where to use it

CodeQuest project gallery and interviews.

Real use example

A student submits Managed solution and passes the rubric.
