

Project Report: Personal Portfolio SPA - Frontend React Developer

Written by Gagan Pasupuleti

Family:	Frontend React Developer
Level:	Beginner
Chapters:	6
Source:	CodeQuest project specification (official docs + industry patterns)

Summary

React + Vite portfolio with responsive layout, React Router pages, and contact form.

Chapters

Track: Project-Intro

Chapter 1: Project Overview [Beginner]

Chapter focus: Project Overview** *(Level: Beginner)

Personal Portfolio SPA** is a beginner-level end-to-end project for Frontend React Developer. Duration: 2 weeks. React + Vite portfolio with responsive layout, React Router pages, and contact form. Tools: React 19, Vite, React Router, Tailwind.

Code Reference:

Objective: 3 routed pages (Home, Projects, Contact)

Objective: Responsive CSS/Tailwind layout

Objective: Deploy to Vercel/Netlify

What it shows: Lists measurable outcomes before you start building.

Topic guide

What it actually is

A project overview defines scope, tools, and success criteria.

When to use it

At project kickoff.

Where to use it

Frontend React Developer portfolios and CodeQuest project submissions.

Real use example

A candidate lists this project on a Frontend React Developer resume with a demo link.

Track: Project-Phase

Chapter 2: Phase: Setup [Beginner]

Chapter focus: Phase: Setup** *(Level: Beginner)

Vite + React + Router. Complete these tasks: Project structure; Navbar. Deliverable for this phase: Running dev server.

Code Reference:

- [] Project structure
- [] Navbar

What it shows: Checklist format helps track phase completion.

Topic guide

What it actually is

Phase Setup is one step in the full project lifecycle.

When to use it

During week 1 of the project timeline.

Where to use it

Frontend React Developer agile sprints and coursework milestones.

Real use example

Team demo shows the Running dev server to the teacher.

Chapter 3: Phase: Pages [Beginner]

Chapter focus: Phase: Pages** *(Level: Beginner)

Build 3 page components. Complete these tasks: Project cards; About section. Deliverable for this phase: All routes working.

Code Reference:

- [] Project cards
- [] About section

What it shows: Checklist format helps track phase completion.

Topic guide

What it actually is

Phase Pages is one step in the full project lifecycle.

When to use it

During week 2 of the project timeline.

Where to use it

Frontend React Developer agile sprints and coursework milestones.

Real use example

Team demo shows the All routes working to the teacher.

Chapter 4: Phase: Style [Beginner]**Chapter focus: Phase: Style** *(Level: Beginner)**

Mobile-first responsive. Complete these tasks: Flexbox/Grid; Dark mode toggle. Deliverable for this phase: Lighthouse 90+ score.

Code Reference:

- ☐ Flexbox/Grid
- ☐ Dark mode toggle

What it shows: Checklist format helps track phase completion.

Topic guide**What it actually is**

Phase Style is one step in the full project lifecycle.

When to use it

During week 3 of the project timeline.

Where to use it

Frontend React Developer agile sprints and coursework milestones.

Real use example

Team demo shows the Lighthouse 90+ score to the teacher.

Chapter 5: Phase: Deploy [Beginner]**Chapter focus: Phase: Deploy** *(Level: Beginner)**

CI deploy to Vercel. Complete these tasks: GitHub Actions; Custom domain. Deliverable for this phase: Live URL.

Code Reference:

- ☐ GitHub Actions
- ☐ Custom domain

What it shows: Checklist format helps track phase completion.

Topic guide

What it actually is

Phase Deploy is one step in the full project lifecycle.

When to use it

During week 4 of the project timeline.

Where to use it

Frontend React Developer agile sprints and coursework milestones.

Real use example

Team demo shows the Live URL to the teacher.

Track: Project-Deliverables

Chapter 6: Final Deliverables and Review [Beginner]

Chapter focus: Final Deliverables and Review *(Level: Beginner)**

Submit all final deliverables: GitHub repo; Live site URL; Lighthouse report. Skills demonstrated: React, Routing, CSS. Prepare a 5-minute walkthrough video and README for CodeQuest teacher marking.

Code Reference:

Deliverable: GitHub repo
Deliverable: Live site URL
Deliverable: Lighthouse report

What it shows: Final checklist ensures nothing is missing at submission.

Topic guide**What it actually is**

Deliverable review confirms end-to-end project completion.

When to use it

Before deadline and teacher review.

Where to use it

CodeQuest project gallery and interviews.

Real use example

A student submits GitHub repo and passes the rubric.
