

Project Report: CodeQuest Teacher Review Platform - Full Stack Web Developer

Written by Gagan Pasupuleti

Family:	Full Stack Web Developer
Level:	Intermediate
Chapters:	6
Source:	CodeQuest project specification (official docs + industry patterns)

Summary

Teachers log in, browse reports by family, mark rubric scores, download PDF - full auth stack.

Chapters

Track: Project-Intro

Chapter 1: Project Overview [Intermediate]

Chapter focus: Project Overview** *(Level: Intermediate)

CodeQuest Teacher Review Platform** is a intermediate-level end-to-end project for Full Stack Web Developer. Duration: 4-5 weeks. Teachers log in, browse reports by family, mark rubric scores, download PDF - full auth stack. Tools: React, Express, PostgreSQL, JWT.

Code Reference:

Objective: JWT auth with bcrypt passwords
Objective: Role-based access (teacher/student)
Objective: Report listing from catalog.json
Objective: Marking form with rubric fields

What it shows: Lists measurable outcomes before you start building.

Topic guide

What it actually is

A project overview defines scope, tools, and success criteria.

When to use it

At project kickoff.

Where to use it

Full Stack Web Developer portfolios and CodeQuest project submissions.

Real use example

A candidate lists this project on a Full Stack Web Developer resume with a demo link.

Track: Project-Phase

Chapter 2: Phase: Auth [Intermediate]

Chapter focus: Phase: Auth** *(Level: Intermediate)

Register/login API. Complete these tasks: bcrypt hash; JWT middleware. Deliverable for this phase: Auth Postman tests.

Code Reference:

- [] bcrypt hash
- [] JWT middleware

What it shows: Checklist format helps track phase completion.

Topic guide

What it actually is

Phase Auth is one step in the full project lifecycle.

When to use it

During week 1 of the project timeline.

Where to use it

Full Stack Web Developer agile sprints and coursework milestones.

Real use example

Team demo shows the Auth Postman tests to the teacher.

Chapter 3: Phase: Reports [Intermediate]

Chapter focus: Phase: Reports** *(Level: Intermediate)

Catalog API + UI. Complete these tasks: Filter by family; PDF download link. Deliverable for this phase: Reports browse page.

Code Reference:

- [] Filter by family
- [] PDF download link

What it shows: Checklist format helps track phase completion.

Topic guide

What it actually is

Phase Reports is one step in the full project lifecycle.

When to use it

During week 2 of the project timeline.

Where to use it

Full Stack Web Developer agile sprints and coursework milestones.

Real use example

Team demo shows the Reports browse page to the teacher.

Chapter 4: Phase: Marking [Intermediate]**Chapter focus: Phase: Marking** *(Level: Intermediate)**

Rubric submission. Complete these tasks: Score fields; Comments. Deliverable for this phase: Marking workflow demo.

Code Reference:

- ☐ Score fields
- ☐ Comments

What it shows: Checklist format helps track phase completion.

Topic guide**What it actually is**

Phase Marking is one step in the full project lifecycle.

When to use it

During week 3 of the project timeline.

Where to use it

Full Stack Web Developer agile sprints and coursework milestones.

Real use example

Team demo shows the Marking workflow demo to the teacher.

Chapter 5: Phase: Deploy [Intermediate]**Chapter focus: Phase: Deploy** *(Level: Intermediate)**

Full stack deploy. Complete these tasks: PostgreSQL on Supabase; CI pipeline. Deliverable for this phase: Production URL.

Code Reference:

- ☐ PostgreSQL on Supabase
- ☐ CI pipeline

What it shows: Checklist format helps track phase completion.

Topic guide

What it actually is

Phase Deploy is one step in the full project lifecycle.

When to use it

During week 4 of the project timeline.

Where to use it

Full Stack Web Developer agile sprints and coursework milestones.

Real use example

Team demo shows the Production URL to the teacher.

Track: Project-Deliverables

Chapter 6: Final Deliverables and Review [Intermediate]

Chapter focus: Final Deliverables and Review *(Level: Intermediate)**

Submit all final deliverables: Production app; API docs; User guide; Demo video. Skills demonstrated: Full stack, Auth, CRUD. Prepare a 5-minute walkthrough video and README for CodeQuest teacher marking.

Code Reference:

Deliverable: Production app
Deliverable: API docs
Deliverable: User guide
Deliverable: Demo video

What it shows: Final checklist ensures nothing is missing at submission.

Topic guide**What it actually is**

Deliverable review confirms end-to-end project completion.

When to use it

Before deadline and teacher review.

Where to use it

CodeQuest project gallery and interviews.

Real use example

A student submits Production app and passes the rubric.
