

Project Report: Incident Response Tabletop Exercise - IT Support / Helpdesk

Written by Gagan Pasupuleti

Family:	IT Support / Helpdesk
Level:	Advanced
Chapters:	6
Source:	CodeQuest project specification (official docs + industry patterns)

Summary

Simulate ransomware incident: detect, contain, eradicate, recover, and write post-incident report.

Chapters

Track: Project-Intro

Chapter 1: Project Overview [Advanced]

Chapter focus: Project Overview** *(Level: Advanced)

Incident Response Tabletop Exercise** is a advanced-level end-to-end project for IT Support / Helpdesk. **Duration:** 3-4 weeks. **Simulate ransomware incident:** detect, contain, eradicate, recover, and write post-incident report. **Tools:** NIST IR framework, ITIL.

Code Reference:

Objective: Incident response plan document
Objective: Tabletop exercise with timeline
Objective: Containment playbook
Objective: Post-incident report with lessons learned

What it shows: Lists measurable outcomes before you start building.

Topic guide

What it actually is

A project overview defines scope, tools, and success criteria.

When to use it

At project kickoff.

Where to use it

IT Support / Helpdesk portfolios and CodeQuest project submissions.

Real use example

A candidate lists this project on a IT Support / Helpdesk resume with a demo link.

Track: Project-Phase

Chapter 2: Phase: Plan [Advanced]

Chapter focus: Phase: Plan** *(Level: Advanced)

IR plan document. Complete these tasks: Roles; Escalation; Contacts. Deliverable for this phase: IR plan PDF.

Code Reference:

- [] Roles
- [] Escalation
- [] Contacts

What it shows: Checklist format helps track phase completion.

Topic guide

What it actually is

Phase Plan is one step in the full project lifecycle.

When to use it

During week 1 of the project timeline.

Where to use it

IT Support / Helpdesk agile sprints and coursework milestones.

Real use example

Team demo shows the IR plan PDF to the teacher.

Chapter 3: Phase: Simulate [Advanced]

Chapter focus: Phase: Simulate** *(Level: Advanced)

Ransomware scenario. Complete these tasks: Detection; Isolation steps. Deliverable for this phase: Exercise timeline.

Code Reference:

- [] Detection
- [] Isolation steps

What it shows: Checklist format helps track phase completion.

Topic guide

What it actually is

Phase Simulate is one step in the full project lifecycle.

When to use it

During week 2 of the project timeline.

Where to use it

IT Support / Helpdesk agile sprints and coursework milestones.

Real use example

Team demo shows the Exercise timeline to the teacher.

Chapter 4: Phase: Contain [Advanced]

Chapter focus: Phase: Contain *(Level: Advanced)**

Execute containment. Complete these tasks: Network isolate; Backup restore. Deliverable for this phase: Containment log.

Code Reference:

- [] Network isolate
- [] Backup restore

What it shows: Checklist format helps track phase completion.

Topic guide

What it actually is

Phase Contain is one step in the full project lifecycle.

When to use it

During week 3 of the project timeline.

Where to use it

IT Support / Helpdesk agile sprints and coursework milestones.

Real use example

Team demo shows the Containment log to the teacher.

Chapter 5: Phase: Report [Advanced]

Chapter focus: Phase: Report *(Level: Advanced)**

Post-incident review. Complete these tasks: Root cause; Improvements. Deliverable for this phase: PIR document.

Code Reference:

- [] Root cause
- [] Improvements

What it shows: Checklist format helps track phase completion.

Topic guide

What it actually is

Phase Report is one step in the full project lifecycle.

When to use it

During week 4 of the project timeline.

Where to use it

IT Support / Helpdesk agile sprints and coursework milestones.

Real use example

Team demo shows the PIR document to the teacher.

Track: Project-Deliverables

Chapter 6: Final Deliverables and Review [Advanced]

Chapter focus: Final Deliverables and Review** *(Level: Advanced)

Submit all final deliverables: IR plan; Exercise timeline; PIR document; Updated playbook. Skills demonstrated: Incident response, Security, Documentation. Prepare a 5-minute walkthrough video and README for CodeQuest teacher marking.

Code Reference:

```
Deliverable: IR plan
Deliverable: Exercise timeline
Deliverable: PIR document
Deliverable: Updated playbook
```

What it shows: Final checklist ensures nothing is missing at submission.

Topic guide

What it actually is

Deliverable review confirms end-to-end project completion.

When to use it

Before deadline and teacher review.

Where to use it

CodeQuest project gallery and interviews.

Real use example

A student submits IR plan and passes the rubric.
