

Project Report: Retail Sales Dashboard - Power BI Analyst

Written by Gagan Pasupuleti

Family:	Power BI Analyst
Level:	Beginner
Chapters:	6
Source:	CodeQuest project specification (official docs + industry patterns)

Summary

Power BI report from Excel/CSV: Power Query cleanup, star schema, DAX measures, published to Service.

Chapters

Track: Project-Intro

Chapter 1: Project Overview [Beginner]

Chapter focus: Project Overview** *(Level: Beginner)

Retail Sales Dashboard** is a beginner-level end-to-end project for Power BI Analyst. Duration: 2 weeks. Power BI report from Excel/CSV: Power Query cleanup, star schema, DAX measures, published to Service. Tools: Power BI Desktop, Power BI Service.

Code Reference:

Objective: Import and transform with Power Query
Objective: Build star schema model
Objective: Create 6 visuals + slicers
Objective: Publish and share

What it shows: Lists measurable outcomes before you start building.

Topic guide

What it actually is

A project overview defines scope, tools, and success criteria.

When to use it

At project kickoff.

Where to use it

Power BI Analyst portfolios and CodeQuest project submissions.

Real use example

A candidate lists this project on a Power BI Analyst resume with a demo link.

Track: Project-Phase

Chapter 2: Phase: Import [Beginner]

Chapter focus: Phase: Import** *(Level: Beginner)

Connect to sales data. Complete these tasks: Remove errors; Change types. Deliverable for this phase: Clean query.

Code Reference:

- [] Remove errors
- [] Change types

What it shows: Checklist format helps track phase completion.

Topic guide

What it actually is

Phase Import is one step in the full project lifecycle.

When to use it

During week 1 of the project timeline.

Where to use it

Power BI Analyst agile sprints and coursework milestones.

Real use example

Team demo shows the Clean query to the teacher.

Chapter 3: Phase: Model [Beginner]

Chapter focus: Phase: Model** *(Level: Beginner)

Fact + dimension tables. Complete these tasks: Relationships; Hide keys. Deliverable for this phase: Validated model.

Code Reference:

- [] Relationships
- [] Hide keys

What it shows: Checklist format helps track phase completion.

Topic guide

What it actually is

Phase Model is one step in the full project lifecycle.

When to use it

During week 2 of the project timeline.

Where to use it

Power BI Analyst agile sprints and coursework milestones.

Real use example

Team demo shows the Validated model to the teacher.

Chapter 4: Phase: DAX [Beginner]**Chapter focus: Phase: DAX** *(Level: Beginner)**

Revenue, YoY, margin measures. Complete these tasks: CALCULATE; TOTALYTD. Deliverable for this phase: Measure list doc.

Code Reference:

- [] CALCULATE
- [] TOTALYTD

What it shows: Checklist format helps track phase completion.

Topic guide**What it actually is**

Phase DAX is one step in the full project lifecycle.

When to use it

During week 3 of the project timeline.

Where to use it

Power BI Analyst agile sprints and coursework milestones.

Real use example

Team demo shows the Measure list doc to the teacher.

Chapter 5: Phase: Publish [Beginner]**Chapter focus: Phase: Publish** *(Level: Beginner)**

Share on Power BI Service. Complete these tasks: Refresh schedule; Mobile layout. Deliverable for this phase: Live dashboard URL.

Code Reference:

- [] Refresh schedule
- [] Mobile layout

What it shows: Checklist format helps track phase completion.

Topic guide

What it actually is

Phase Publish is one step in the full project lifecycle.

When to use it

During week 4 of the project timeline.

Where to use it

Power BI Analyst agile sprints and coursework milestones.

Real use example

Team demo shows the Live dashboard URL to the teacher.

Track: Project-Deliverables

Chapter 6: Final Deliverables and Review [Beginner]

Chapter focus: Final Deliverables and Review *(Level: Beginner)**

Submit all final deliverables: PBIX file; Published report link; DAX measure documentation. Skills demonstrated: Power Query, DAX, Modeling. Prepare a 5-minute walkthrough video and README for CodeQuest teacher marking.

Code Reference:

Deliverable: PBIX file
Deliverable: Published report link
Deliverable: DAX measure documentation

What it shows: Final checklist ensures nothing is missing at submission.

Topic guide**What it actually is**

Deliverable review confirms end-to-end project completion.

When to use it

Before deadline and teacher review.

Where to use it

CodeQuest project gallery and interviews.

Real use example

A student submits PBIX file and passes the rubric.
