

Project Report: Manual Test Suite for Web App - QA & Test Engineer

Written by Gagan Pasupuleti

Family:	QA & Test Engineer
Level:	Beginner
Chapters:	6
Source:	CodeQuest project specification (official docs + industry patterns)

Summary

Write 30 test cases, execute exploratory sessions, log bugs in a tracking template.

Chapters

Track: Project-Intro

Chapter 1: Project Overview [Beginner]

Chapter focus: Project Overview** *(Level: Beginner)

Manual Test Suite for Web App** is a beginner-level end-to-end project for QA & Test Engineer. **Duration:** 1-2 weeks. **Write 30 test cases, execute exploratory sessions, log bugs in a tracking template. Tools:** Excel/Sheets, Bug tracker template.

Code Reference:

```
Objective: 30 structured test cases
Objective: 5 exploratory charters
Objective: 10 bug reports with severity
Objective: Test summary report
```

What it shows: Lists measurable outcomes before you start building.

Topic guide

What it actually is

A project overview defines scope, tools, and success criteria.

When to use it

At project kickoff.

Where to use it

QA & Test Engineer portfolios and CodeQuest project submissions.

Real use example

A candidate lists this project on a QA & Test Engineer resume with a demo link.

Track: Project-Phase

Chapter 2: Phase: Plan [Beginner]

Chapter focus: Phase: Plan** *(Level: Beginner)

Test strategy document. Complete these tasks: Scope; Risks. Deliverable for this phase: Test plan PDF.

Code Reference:

- [] Scope
- [] Risks

What it shows: Checklist format helps track phase completion.

Topic guide

What it actually is

Phase Plan is one step in the full project lifecycle.

When to use it

During week 1 of the project timeline.

Where to use it

QA & Test Engineer agile sprints and coursework milestones.

Real use example

Team demo shows the Test plan PDF to the teacher.

Chapter 3: Phase: Cases [Beginner]

Chapter focus: Phase: Cases** *(Level: Beginner)

Write test cases. Complete these tasks: Happy path; Edge cases. Deliverable for this phase: Test case spreadsheet.

Code Reference:

- [] Happy path
- [] Edge cases

What it shows: Checklist format helps track phase completion.

Topic guide

What it actually is

Phase Cases is one step in the full project lifecycle.

When to use it

During week 2 of the project timeline.

Where to use it

QA & Test Engineer agile sprints and coursework milestones.

Real use example

Team demo shows the Test case spreadsheet to the teacher.

Chapter 4: Phase: Execute [Beginner]**Chapter focus: Phase: Execute** *(Level: Beginner)**

Run manual tests. Complete these tasks: Exploratory sessions; Screenshots. Deliverable for this phase: Execution log.

Code Reference:

- [] Exploratory sessions
- [] Screenshots

What it shows: Checklist format helps track phase completion.

Topic guide**What it actually is**

Phase Execute is one step in the full project lifecycle.

When to use it

During week 3 of the project timeline.

Where to use it

QA & Test Engineer agile sprints and coursework milestones.

Real use example

Team demo shows the Execution log to the teacher.

Chapter 5: Phase: Report [Beginner]**Chapter focus: Phase: Report** *(Level: Beginner)**

Summary for stakeholders. Complete these tasks: Pass/fail stats; Open defects. Deliverable for this phase: Test summary report.

Code Reference:

- [] Pass/fail stats
- [] Open defects

What it shows: Checklist format helps track phase completion.

Topic guide

What it actually is

Phase Report is one step in the full project lifecycle.

When to use it

During week 4 of the project timeline.

Where to use it

QA & Test Engineer agile sprints and coursework milestones.

Real use example

Team demo shows the Test summary report to the teacher.

Track: Project-Deliverables

Chapter 6: Final Deliverables and Review [Beginner]

Chapter focus: Final Deliverables and Review *(Level: Beginner)**

Submit all final deliverables: Test plan; 30 test cases; 10 bug reports; Summary report. Skills demonstrated: Manual testing, Documentation. Prepare a 5-minute walkthrough video and README for CodeQuest teacher marking.

Code Reference:

Deliverable: Test plan
Deliverable: 30 test cases
Deliverable: 10 bug reports
Deliverable: Summary report

What it shows: Final checklist ensures nothing is missing at submission.

Topic guide**What it actually is**

Deliverable review confirms end-to-end project completion.

When to use it

Before deadline and teacher review.

Where to use it

CodeQuest project gallery and interviews.

Real use example

A student submits Test plan and passes the rubric.
