Chapters:	6
Source:	CodeQuest project specification (official docs + industry patterns)

Summary

Custom objects for Donors and Donations, page layouts, reports, and a simple Flow for thank-you email.

Chapters

Track: Project-Intro

Chapter 1: Project Overview [Beginner]

Chapter focus: Project Overview** *(Level: Beginner)

Nonprofit Donor Tracker** is a beginner-level end-to-end project for Salesforce CRM Developer / Administrator. **Duration:** 2-3 weeks. Custom objects for Donors and Donations, page layouts, reports, and a simple Flow for thank-you email. **Tools:** Salesforce Developer Edition, Flow Builder.

Code Reference:

Objective: Custom Donor and Donation objects
Objective: Page layouts and list views
Objective: Donation summary report
Objective: Record-triggered thank-you email Flow

What it shows: Lists measurable outcomes before you start building.

Topic guide

What it actually is

A project overview defines scope, tools, and success criteria.

When to use it

At project kickoff.

Where to use it

Salesforce CRM Developer / Administrator portfolios and CodeQuest project submissions.

Real use example

A candidate lists this project on a Salesforce CRM Developer / Administrator resume with a demo link.

Track: Project-Phase

Chapter 2: Phase: Objects [Beginner]

Chapter focus: Phase: Objects** *(Level: Beginner)

Donor + Donation custom objects. Complete these tasks: Fields; Lookup relationship. Deliverable for this phase: Object schema doc.

Code Reference:

- [] Fields
- [] Lookup relationship

What it shows: Checklist format helps track phase completion.

Topic guide

What it actually is

Phase Objects is one step in the full project lifecycle.

When to use it

During week 1 of the project timeline.

Where to use it

Salesforce CRM Developer / Administrator agile sprints and coursework milestones.

Real use example

Team demo shows the Object schema doc to the teacher.

Chapter 3: Phase: UI [Beginner]

Chapter focus: Phase: UI** *(Level: Beginner)

Page layouts. Complete these tasks: Related lists; Compact layout. Deliverable for this phase: Layout screenshots.

Code Reference:

- [] Related lists
- [] Compact layout

What it shows: Checklist format helps track phase completion.

Topic guide

What it actually is

Phase UI is one step in the full project lifecycle.

When to use it

During week 2 of the project timeline.

Where to use it

Salesforce CRM Developer / Administrator agile sprints and coursework milestones.

Real use example

Team demo shows the Layout screenshots to the teacher.

Chapter 4: Phase: Report [Beginner]

Chapter focus: Phase: Report *(Level: Beginner)**

Donation dashboard. Complete these tasks: Total by month; Top donors. Deliverable for this phase: Report + dashboard.

Code Reference:

- [] Total by month
- [] Top donors

What it shows: Checklist format helps track phase completion.

Topic guide**What it actually is**

Phase Report is one step in the full project lifecycle.

When to use it

During week 3 of the project timeline.

Where to use it

Salesforce CRM Developer / Administrator agile sprints and coursework milestones.

Real use example

Team demo shows the Report + dashboard to the teacher.

Chapter 5: Phase: Flow [Beginner]

Chapter focus: Phase: Flow *(Level: Beginner)**

Thank-you email. Complete these tasks: Record-triggered; Email template. Deliverable for this phase: Flow demo video.

Code Reference:

- [] Record-triggered
- [] Email template

What it shows: Checklist format helps track phase completion.

Topic guide

What it actually is

Phase Flow is one step in the full project lifecycle.

When to use it

During week 4 of the project timeline.

Where to use it

Salesforce CRM Developer / Administrator agile sprints and coursework milestones.

Real use example

Team demo shows the Flow demo video to the teacher.

Track: Project-Deliverables

Chapter 6: Final Deliverables and Review [Beginner]

Chapter focus: Final Deliverables and Review** *(Level: Beginner)

Submit all final deliverables: DE org config; Report screenshots; Flow demo. Skills demonstrated: Salesforce admin, Objects, Flows. Prepare a 5-minute walkthrough video and README for CodeQuest teacher marking.

Code Reference:

```
Deliverable: DE org config
Deliverable: Report screenshots
Deliverable: Flow demo
```

What it shows: Final checklist ensures nothing is missing at submission.

Topic guide

What it actually is

Deliverable review confirms end-to-end project completion.

When to use it

Before deadline and teacher review.

Where to use it

CodeQuest project gallery and interviews.

Real use example

A student submits DE org config and passes the rubric.
